***Safe car seats
for every child***

SPARCO®

Sparco was established in 1977 to meet the safety requirements in the world of motor racing. Today, it can lay claim to a long tradition in the field of motorsport, sporting apparel, and accessories for competition, in addition to supplying original carbon seats and components for the automotive, aerospace, and Formula 1 industries.

Sparco currently supplies 300 Teams participating in national and international sporting events. For the drivers and fans who have made their passion into a real job. From F1 to karting.

Teams such as McLaren, Manor, M-Sport Ford, Citroen Racing, Renault Sport, Skoda, Peugeot, GP2 teams, Nascar teams, and many others use Sparco products.

The greatest champions on the podium with Sparco.

Brand presence across ALL Motorsport products gives Sparco incredible visibility across a range of media. But most importantly, Sparco is a brand of CREDIBILITY!

SPARCO® KIDS!

If you are looking to buy quality and comfortable child car seats you have come to the right place. Sparco Kids is a unique collection based on the Sparco brand that is wholly devoted to child safety in the car. This includes a range of various child car seats and their necessary accessories.

Sparco child seats stand out with their exceptional quality of materials and production. Designed by experts in the areas of safety equipment, child car seats provide the maximum protection possible in a typical car. The ergonomic shape of the seat allows your kid to feel comfortable, and be reliably strapped in at the same time. Sparco child seats give you an opportunity to personally configure them for your child. They have an adjustable headrest, wide backrest, one-hand recline function, and Holmberg belt system.

Sparco Kids collection is an excellent choice for those who appreciate quality, safety, and comfort. When buying Sparco products, you make driving fun and joyful for your kids.

Coming soon

Sparco's latest line of i-size child car seats were designed with a three-prong approach that focuses on safety, comfort, and function. The i-size designation is reserved for car seats that meet the EU's strict safety standards for side impact protection and rearward-facing restraints. Additionally, i-size car seats take both a child's height and weight into consideration versus just the child's weight, thus allowing parents to choose a more accurate and appropriate seat.

All car seats come equipped with adjustable head rests, 360-degree rotation, foldable support legs, and wider backrests so that your child can remain safer, longer.

Sparco i-size car seats are compatible with i-size approved vehicles and vehicles with isofix fitting points.

SPECIFICATION

Height 40 - 105 cm	ISOFIX + Support leg
Height 83 - 135 cm	Vehicle Seat Belt
Recommended weight	9 - 25 kg (approx)
Recommended weight	0 years - 12 years (approx)
